YOUNG ADULTS

In today's culture, young adults and young families are feeling more and more pressure to conform to the pattern of this world. It seems as if television, movies, music, books, social media, etc. are all being used as a platform to advance an anti-Christian agenda. And for a young Christian family or a single young adult, this can be overwhelming. It can bring about feelings of loneliness and isolation. It can make us wonder how we can possibly impact our community with the Truth of the Gospel or how we can possibly be more influential on our children and our loved ones than the current culture is. The Young Adult's Ministry exists to help overcome these feelings of loneliness and isolation by providing a place for young adults to

develop meaningful relationships with Christ as the foundation... as He is meant to be the foundation for everything in our lives. Likewise, we will be better equipped to impact our community for the Truth of the Gospel as we come together and put our gifts and time and resources together with one, unified purpose: To glorify God and to enjoy Him. It is for this purpose that each of us was created, and it is only when we live for this purpose that we're able to impact our community in a way that is eternally meaningful. Young adult ministry is a place where we can laugh together, serve together, pray together, grow together and even cry together. So, whether you're married with children, married without children or single, we'd love to share life with you and grow together in the Lord.

MISSION KIDS
